	25,			
	importance of iron, uses of iron, qualities of iron.			
	metallergy			
	iron is not the product of this earth, it is an alien			
	metal, it came on the earth when a meteoride			
	containing a heavy amount of iron collided with			
	earth, as the rresult of this collision, it scattered in			
	many pieces, these pieces penetrated deep in the			
	earth, from there we get iron ore via mining and			
	digging, then we purify this ore and by a precess we			
	get solid iron.
